

RENSAIR

- SPECIFICATION GUIDE

airbubbl®

Air purifier for vehicles

The compact AirBubbl provides purified air for vehicle occupants, delivering 38 cubic metres of clean air every hour. Its flexible design means it can be instantly attached to and from car seat headrests or mounted in driver cabins.

rensair.com

Air pollution can be up to 10x higher inside a vehicle than outside. AirBubbl removes both particulate matter and noxious gases:

- PM2.5 and PM10 particulates, including dust, pollen, soot, fibres, bacteria and viruses.
- Nitrogen Dioxide, Sulphur Dioxide, Ozone and Volatile Organic Compounds, including Benzene, Toluene, Ethylbenzene, and Xylene

KEY FEATURES

Dual filter system

HEPA filter for particulates and nano carbon filter for gases.

Plug and play

Requires no changes to the vehicle's ventilation system.

Patented airflow design

A powerful fan ensures that clean air efficiently reaches all passengers inside a vehicle.

Effective cleaning

Removes more than 99% of particles and gases.

Installation

Easy to install. Simply connect to a car USB or power adaptor.

Simple maintenance

Filter element is completely user serviceable and typically lasts for 1,000 hours of use.

SPECIFICATIONS

Airflow	38m ³ per hour (standard vehicle interior is 3m ³). Two settings: Normal and Boost mode
Colour	Space grey, brushed aluminium, grey fabric cover, grey strap
Dimensions	Size 31 x 12 cm, weight 0.8kg
Noise	44 dBA in Normal mode, 48 dBA in Boost mode
Power	USB-C inlet. 5V, 2.1 A (10W). Powered via USB to car power adapter or other suitable USB power supply (5V, 2.1A)
